

Education to Employment

Giving tomorrow's workforce the tools to succeed!

Education to Employment (E2E) is for students ages 14-21, with a suspected disability, a 504 plan, or an IEP, and live in an approved county in the state of Utah. Please call your Career Advocate to find out!

E2E partners with local employers and is designed to help you explore career options and prepare you for the transition from high school to either college or the world of work.

After working together to determine a career pathway, the Career Advocate will provide or arrange for a variety of tailored pre-employment transitional services to break down barriers between you and your dream job.

For more information or to begin enrollment in the program, contact us!

Area Career Advocate: Alisha Byron
Telephone: (801) 499-4997

LSI

"I was contacted by several companies for interviews. Each employer mentioned they liked how refreshing my resume was. My Career Advocate encouraged me to think outside of the traditionally formatted resume because of the artistic field I was applying for. " - Layton High School Student

"Because I am only 15, it was hard for me to find employment. I wanted a job so badly so I could start saving for a car. My Career Advocate helped me create a resume, find summer employment and helped me set a savings budget so I could reach my goals!" - Utah Military Academy Student

Total Students served 696

Self-Advocacy

1 Students learn how to advocate for themselves in the workplace.

Total Students served 659

Total Students served 349
