What is an Intermediate Care Facility for Persons with Intellectual Disabilities or ICF/ID?

An ICF/ID:

- Provides a variety of services to assist each individual to reach their full potential. With supports offered, individuals are provided vast opportunities to excel. Such supports include assistance with the following: general life skills, behavioral support, recreation and social interaction through active involvement in the community;
- Has medical, psychological and nutritional (dietary) supports available; and
- Supports individuals who are of school age to remain in the education system and supports older individuals to explore and participate in vocational opportunities through supported employment and vocational workshops.

Who is eligible?

To be eligible, individuals must:

- Meet the level of care criteria as verified by dedicated nurses at the Utah Department of Health,
- Have a diagnosis of intellectual disability or other related condition and require at least weekly interventions by a health care professional, and
- Meet the financial eligibility requirements for Medicaid if funding for services is to be provided by Medicaid.

Anything else should I know?

- There is no waiting list.
- Skills are taught so that greater independence may be achieved. An individual can choose to remain in this environment for as long as they like.
- All age groups are served.
- Family involvement is strongly encouraged.
